

ABOUT

PUR Projet is a global leader in supply chain sustainability. We develop socio-environmental projects within the supply chains of our Corporate Partners. Through the economic and social empowerment of local communities and the introduction of sustainable development initiatives at the agricultural level, PUR Projet seeks to address climate change, while regenerating and preserving the ecosystems upon which these supply chains depend. Many of PUR Projet's projects fall within the categories of inseting, regenerative agriculture, agroforestry, forest conservation and landscape restoration. PUR Projet employs over 80 people in 14 countries and counts 9 legal entities around the world.

As PUR Projet is expanding worldwide, we are looking for a dynamic and organized Projects manager hired under a Consultancy contract for 10 months with capacity to be full time dedicated to the following missions

As a key contributor to the activities of the Latin America team, you will work directly with LATAM Regional Manager based in Bogota. You will develop, coordinate, roll out and monitor ecosystem restoration, agroforestry and sustainable agriculture projects across Brazil with various communities:

- Project feasibility assessment

Assess the feasibility of implementing a carbon-certified tree planting project with coffee farmers in Brazil in designated areas, according to PUR Projet's principles and methodologies. Initiate first steps of project design (e.g. project activities, roadmap, budget, indicators, suppliers). Deliver a complete feasibility report in English language to present the mission conclusions.

- Technical studies

Conduct technical evaluation missions to assess farming practices of designated areas on a diversity of crops (e.g. coffee, sugar cane) and provide insights to value existing good practices and suggest improvements (reduction of carbon footprint at farming level, implementation of regenerative agriculture practices). Deliver a complete feasibility report in English language to present the mission conclusions.

- Project assessment

Visit existing projects and assess potential for scale up, carbon certification or project management improvement following specific standards and methodologies.

- Project coordination

Set-up, plan, coordinate and monitor the implementation of PUR Projet's projects activities in partnership with local partners. Control quality of implementation, field data consolidation and reporting. Improve proceedings. Manage project contracts and budgets, update reporting and communication tools.

You have experience related to carbon certification, coffee supply chain and/or agronomy and/or forestry.

You are a team player, and you want to contribute to a safe workplace,

You have an entrepreneurship mindset and good at management operations,

You are passionate about climate, forestry and ecology,

This position is for you!

We are looking for a candidate with:

- Minimum of 5 years in project management in above mentioned fields of activities in Brazil
- Graduated from a MSc in Natural Resource Management, Agronomy, Forestry, Agroforestry, Rural Development or equivalent experience
- Experience in carbon certification of AFOLU projects under VCS and/or GS standards
- Organizational skills, reporting & team management
- Strong knowledge on data management, Excel
- Must be fluent in English and Portuguese.

How can you apply?

Send your CV + short cover letter in English (before March 28th) to: louise.barreau@purprojet.com with the subject Projects manager Brazil to request a telephone interview. The final two stages of the recruitment process will be a case study and a fit team. Please be prepared to have two references available upon request.
