

## WHO WE ARE

PUR Projet is a global leader in supply chain sustainability. We develop socio-environmental projects within the supply chains of our Corporate Partners. Through the economic and social empowerment of local communities and the introduction of sustainable development initiatives at the agricultural level, PUR Projet seeks to address climate change, while regenerating and preserving the ecosystems upon which these supply chains depend. Many of PUR Projet's projects fall within the categories of insetting, regenerative agriculture, agroforestry, forest conservation and landscape restoration. PUR Projet is a B Corp Company which employs over 110 people and a presence in 10 countries.

## PUR Projet is recruiting a Senior Country Manager to lead our operations in Peru

As part of the Projects team you will report to the Latin America Regional Manager and will oversee our projects in Peru. The successful candidate will be the lead point of reference for operations in country (our largest in the world) and key point of contact for our teams and partners, taking part in the restructuring of our Peruvian organisation, the carbon certifications, the enhancement of the project designs and the management of the team.

Your key responsibilities include:

- **Project management:** Set-up, Plan, Coordinate, and Monitor the implementation of project activities, build, train and manage local teams and partners, control quality of implementation, improve proceedings, coordinate the implementation of Impact monitoring activities, develop and manage project budgets, update Reporting and Communication tools and formats, lead carbon certifications in tandem with our Carbon expert teams
- **Project monitoring:** Monitor projects outputs (adapt and implement data collection tools, consolidate and analyze data, contributes to regular reporting on progress and budget), coordinate the monitoring of project impacts.
- **Project development:** Upon Client request, assess the feasibility of and design new ecosystem restoration initiatives in Peru. Contribute to specific gender, social inclusion, or other thematic project initiatives.
- **Team management :** management of 5+ teams members in country and about 10 local implementing partners + anticipate and lead potential recruitments and onboarding of new employee(s)
- **Partnership management:** Support the Programs Team in the coordination of projects, partners including clients, local partners and beneficiaries; contribute to the negotiation of deals with private/public partners to implement innovative projects; coordinate project field visits with and for clients and partners.
- **External representation and communication:** Act as the projects' and partnerships' focal point; represent PUR Projet and support the development of marketing and communication on his/her projects.

You have solid project management skills; You demonstrated technical capacity for project development; You are passionate about agroforestry, reforestation and conservation initiatives. You have solid knowledge of carbon topics and are a real team player: **This position is for you!**

### We are looking for a candidate with:

- Minimum 7 years of experience in sustainable agriculture, conservation and/or community project implementation.
- Graduated from an MSc in Natural Resource Management, Agronomy, Forestry, Agroforestry, Rural Development or equivalent experience.
- Knowledge and/or experience with key commodities produced in Peru (cocoa and coffee); experience in managing multistakeholder initiatives with communities, partners and clients/funders.
- Knowledge or experience in handling carbon certification for afforestation/reforestation projects
- Fluency in Spanish and English; French is a strong plus
- A legal right to work and live in Peru and to frequently travel in the country and punctually in the Latin American region

## How can you apply?

Send your CV (before October 15th) to: [louise.barreau@purprojet.com](mailto:louise.barreau@purprojet.com) with the subject "SCM Peru" to request a telephone interview. The final two stages of the recruitment process will be a case study and a team fit test. Please be prepared to have two references, and extra deliverables if possible, available upon request.
