

WHO WE ARE

PUR Projet is a global leader in supply chain sustainability. We develop socio-environmental projects within the supply chains of our Corporate Partners. Through the economic and social empowerment of local communities and the introduction of sustainable development initiatives at the agricultural level, PUR Projet seeks to address climate change, while regenerating and preserving the ecosystems upon which these supply chains depend. Many of PUR Projet's projects fall within the categories of inseting, regenerative agriculture, agroforestry, forest conservation and landscape restoration. PUR Projet is a B Corp Company which employs over 110 people and a presence in 10 countries.

PUR Projet is looking for a Field Data Collection Officer to be based in Abidjan.

PUR Projet manages different projects across the world and collects the data linked to those projects. The field teams monitor and follow each project around the world with different tools such as Kobo. All this data pipeline aims to improve our impact and our projects in the field. The IT department manages this data to build a strong data pipeline.

As a key member of the Project team, you will report to the Regional Manager. You will support the project team by implementing field data collection for the follow-up and the monitoring of activities in various regions of Africa.

Your responsibilities will include in a non-exhaustive manner:

- **Project management :**
 - Set-up, plan, coordinate and support the implementation of data collection projects' activities;
 - Control the quality of the implementation;
 - Coordinate the implementation of impacts by monitoring activities;
 - Support potential carbon certifications and livelihood studies.
- **Data analysis – Monitoring & Evaluation reporting:**
 - Monitor projects outputs (adapt and implement data collection tools);
 - Consolidate and analyze data;
 - Contribute to regular reporting on progress and budget.
- **Field data collection training & support:**
 - Attend and deliver training sessions to ensure the efficiency of the process in the field;
 - Improve training and educative materials.
- **Support innovation:**
 - Contribute to the improvement of PUR Projet's data collection tools vision and proceedings.

We are looking for a candidate with:

- MSc degree in Natural Resource Management, Agronomy, Forestry, Agroforestry, Rural Development, or equivalent experience with an engineer spirit;
- Minimum 1 year of experience (relevant internships will be considered);
- Excellent command of Excel;
- Knowledge or experience in SIG and/or ODK environment is a plus;
- Good organizational skills with an analytical mindset;
- Ability to communicate easily in a multi-cultural environment;
- Comfortable in English and French.

How can you apply?

Send your CV and a cover letter (before December 5th) to: recruitment@purprojet.com with the subject "[Field Data Officer Abidjan]" to request an interview. The final two stages of the recruitment process will be a case study and a fit team test. Please be prepared to have two references, available upon request.
